

TITLE OF THE SUCCESS STORY – 06:

Progressive Woman Vegetable Grower

FARMER DETAILS:

Smt Madhavi Gawas
Taleigao, Goa
Contact No.: 7038203421

DETAILS OF SUCCESS STORY:

BACKGROUND:

Mrs. Madhavi Gawas, a resident of Taleigao Village, is having an area of around 2500 m² in which she takes up paddy during kharif and vegetables during rabi season. She is a regular visitor of KVK and attend capacity building programmes. Specifically, she wanted our intervention in vegetable production and regarding quality seeds, timely land preparation, pest and disease management.

INTERVENTION TECHNOLOGY:

Since timely land preparation was not happening KVK provided a power tiller with necessary attachments. Irrigation was another important work and KVK helped her with a 2 HP water lifting pump with pipeline which otherwise was done by hand irrigation thus reducing lot of drudgery and time. KVK officials were making regular field visits to monitor pest and diseases and their management.

IMPACT HORIZONTAL SPREAD:

The benefits of the technology was for entire group of farmers which in turn was replicated by farmers with the help of other Govt. agencies.

IMPACT ECONOMIC GAINS:

The gross income of the farmer was around Rs. 50,000/- before the intervention which is now more than Rs. 1.5 lakhs / season. The farmer produced 02 tons of cluster bean and 05 tons of Chilli during 2016-17 and bagged prize for vegetable production from Goa State Horticulture Corporation Ltd.

GLIMPSES OF SUCCESS:
